"**Swifter Higher Stronger.** In each of us there is a leader, ready to drive change, willing to set a powerful example, able to inspire action. In September I asked you for dedication, sacrifice and a "herculean" effort to help us achieve our fundraising goals for the 2009 United Way campaign. I told you that it would not be easy. The economic challenges we face are real and often harsh. We see monumental challenges every day: children who don't eat before going to school or at lunch, adults who are coping with the effect of a brain injury, youth who cannot read, and individuals with no place to sleep. The needs of our community have not decreased. We asked you for your best effort, in the true spirit of caring, cooperation and generosity for the betterment of our community. You answered that pledge with a resounding **YES**, you inspired and motivated, you acted. Thank you for making that medal winning decision. Thank you to all of our employee campaigns, we are proud to have you as partners as we set out to create opportunities for a better life for everyone." Tony Ryan, 2009 Campaign Chair
